

Experiential Learning Opportunities

Unique ways to gain professional experience!

Forage

- Develop skills and gain an understanding of different roles/sectors by working through self-paced virtual job simulations – tackling tasks that mirror students would do if they were an employee at a Fortune 500 company.

NUworks and Localized

- In NUworks, consider searching for part-time or full-time internships and co-op opportunities regularly. Students can use them to try new areas and measure career fit.
- Through Localized, discover full-time and part-time opportunities and internships with local and international companies and communicate directly with employers.

NU Temps

- Open to international and U.S. students, the NU internal temporary agency offers year-round, paid opportunities. NU Temps works primarily with graduate students and undergraduate students with few years of experience.

Staffing Agencies

- Staffing agencies provide paid temporary or contract opportunities where students work on an interim basis at an organization, once they pass the interview process. Agencies specialize in particular fields, including technical and scientific disciplines and healthcare.

XN Projects

- Students can work on short- and long-term projects, working with experiential organizations. International students are highly encouraged to participate. Long-term engagements like internships and co-ops are also available.
